VERSATILE AND RELIABLE: TRANSFORMING ACCESSIBILITY WITH RIDES ON DEMAND MICROTRANSIT

TripSpark's rider-facing Rides on Demand mobile app offers flexible transportation solutions that cater to your agency's needs. TripSpark provides highly efficient transportation options by combining Rides on Demand with industry-leading demand response solutions, NovusDR and PASS. This allows riders to plan their trips by conveniently requesting pick-ups and drop-offs.

📍 IMPROVED ACCESSIBILITY – SERVING UNDERSERVED AREAS

Rides on Demand's Microtransit functionality helps transit agencies fill service gaps by improving service flexibility to underserved areas. It improves existing transit systems by facilitating connections to major hubs, allowing riders to be picked up and dropped off at their desired destinations. The service adapts routes based on real-time demand, ensuring efficient pickups and drop-offs without fixed schedules.

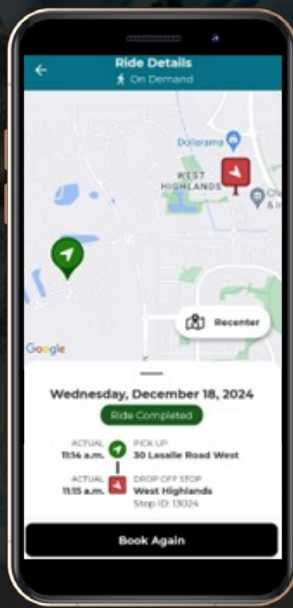

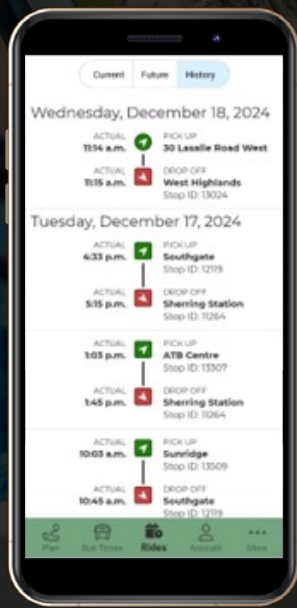

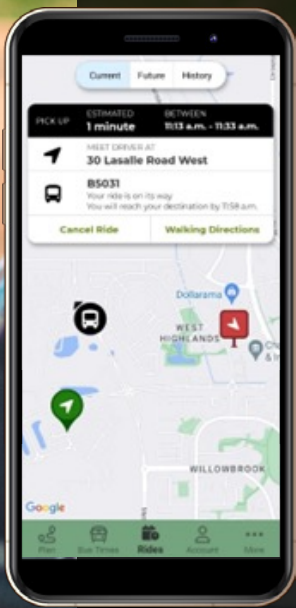

Rides on Demand's Microtransit functionality enables agencies to offer transit services across areas where fixed-route services may not be feasible. This flexible app allows riders to schedule their rides, providing them with greater control and improving trust in the transit system, which enables better planning decisions.

📍 REAL-TIME INFORMATION: BOOST RIDER TRUST

Rides on Demand for Microtransit provides real-time information that allows riders to track vehicle locations and estimated arrival times, enhancing their overall travel experience. With real-time navigation, riders receive detailed updates on the vehicle's whereabouts, enabling them to plan their journeys more effectively.

Rides on Demand for Microtransit represents a dynamic and adaptable transportation solution that bridges the gap between traditional public transit and personalized ride services. This versatile and sustainable methodology allows agencies to integrate responsive, adaptable transit networks that better serve their communities.

Build trust and transparency in the service

Provide flexibility over traditional fixed routes

Improve network efficiency by bridging coverage gaps

Ensure inclusivity for underserved areas

»» OPTIMIZE YOUR MICROTRANSIT SERVICES WITH RIDES ON DEMAND

The Rides on Demand app's microtransit functionality puts the power in the hands of your riders, giving them more control over planning and scheduling their journey with a solution that's simple, user-friendly, and designed to meet WCAG 2.2 AA accessibility standards. Rides on Demand makes it easy to get more people on board with a single app that guides riders through every step of their on-demand journey.
